

The numbers which are divisible by three

In this section we will first determine the numbers which are contained in the index of Qur'ān that are divided by three. Then, we will investigate whether a mathematical harmony exists between them or not.

In the following list, the numbers contained in the index of Qur'ān which are divisible by three are marked:

List-90

 Let us now divide the numbers in the index of Qur'ān into two categories of homogeneous and non-homogeneous, with respect to “divisible by three”.

 Example for the surahs with homogeneous sequence numbers and number of ayats:

6 Al-En‘ām 165

Al-En‘ām is a homogeneous surah. Forwhy, both the sequence number and the number of ayats, meet the condition of “divisible by three”. Therefore, al-En‘ām surah is homogeneous in this respect.

1 Al-Fātiḥa 7

Surah al-Fātiḥa is also a homogeneous surah. Forwhy, neither the sequence nor the number of ayats, meets the condition of “divisible by three”. Therefore, al-Fātiḥa surah is homogeneous in this respect.

 Example for the surahs of which their sequence numbers and number of ayats are not homogeneous:

18 Al-Kahf 110

The sequence number of al-Kahf surah meets the condition of “divisible by three”, whereas it's number of ayats does not cover this condition. Therefore, al-Kahf surah is not homogeneous in this respect.

5 Al-Māidah 120

The number of ayats of al-Māidah surah meets the condition of “divisible by three”, whereas it's sequence number does not cover this condition. Therefore, al-Māidah surah is not homogeneous in this respect.

There are 28 surahs in List-93

28 is not a prime number!

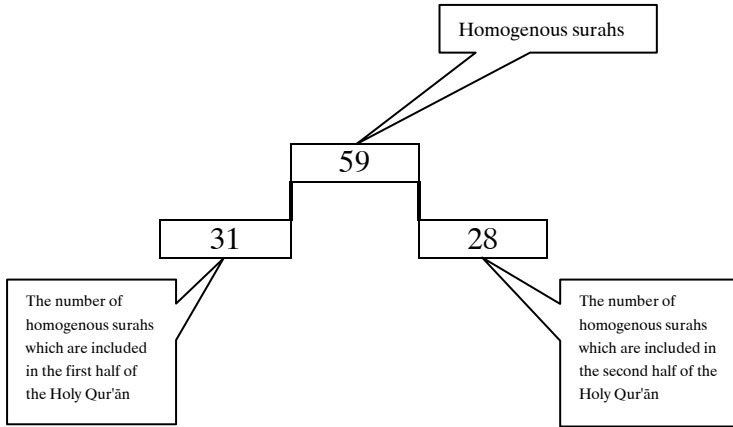

Figure-18 Distribution of the homogeneous surahs (as prime and non-prime) is shown.

Evaluation

The surahs which are homogeneous with regard to “divisible by three” of the sequence numbers and the number of ayats are distributed as (prime and non-prime) numbers in the first and second half of Qur’an.

What about the non-homogeneous surahs?

Now, let’s examine the non-homogeneous surahs with the same approach.
